10. In closing, Charlie mentioned that [redacted] is going to the USGS in two weeks. (He will have the third highest position in Topographic Division, with a title roughly "Deputy Director for Plans and Programs Development." This was [redacted] job.) Charlie, of course, is very unhappy to lose [redacted] but recognizes that it will be a promotion for him. [redacted] noted that [redacted] who was at an earlier date with the Topo Command, is joining the ACSI staff.

12. Before leaving, I mentioned to Charlie some points regarding what would be useful contributions to [redacted] work. I had talked to Roy about these. Charlie said he would pass the thoughts on to [redacted] He emphasized, however, that they are wrestling with these matters, but have still to come up with significant agreed conclusions regarding the requirements and operations approach in Roy's field.
